About Clinigen Group

Clinigen Group plc (AIM: CLIN) is a global pharmaceutical and services company with a unique combination of businesses focused on providing access to medicines. Its mission is to deliver the right medicine to the right patient at the right time through three areas of global medicine supply; clinical trial, unlicensed and licensed medicines.

Clinical Trial Services

Clinigen is the global market leader in the specialist supply and management of quality-assured comparator medicines and services to clinical trials and Investigator Initiated Trials.

Unlicensed Medicines

Clinigen is the global leader in ethically sourcing and supplying unlicensed medicines to hospital pharmacists and physicians for patients with a high unmet medical need. The Group manages early access programmes to innovative new medicines and provides 'on-demand' access globally to medicines which remain unlicensed at the point of care.

Commercial Medicines

The Group acquires global rights to niche hospital-only and critical care products, revitalising these assets around the world and returning them back to sustained growth. The Group also provides access to licensed and branded generic medicines in the Africa and Asia Pacific region.
